

NOTHING BUT POLITICS FOR GARY NOW

Gen. Leonard Wood, Gary Theater, Thursday evening, 7:30 p. m. Senator Hiram Johnson, Gary Theater, Friday evening, 8 p. m. Gen. Leonard Wood, Gary Theater, Saturday evening, 8 p. m. Arthur T. McGray, Army, 567 Broadway, Monday evening, 8 p. m.

With the primaries but five days away, Gary is still going to have the opportunity of hearing Gen. Leonard Wood, Senator Hiram Johnson, Gov. Lowden of Illinois, and Arthur T. McGray, republican candidate for governor.

Probably never before in the history of Lake county has the voters been given the opportunity of hearing as many noted speakers and their theories for office. In the speeches given to date, the speakers have made no reference to the issue before the public and they are well aware of what each stands for.

Tomorrow evening, Thursday, Leonard Wood will appear in a monster mass meeting at the Gary theater. He will arrive in the city after speaking at East Chicago and other cities in the region. Following close on his heels will be his opponents, Senator Johnson at the Gary Theater on Friday evening and on Saturday Gov. Lowden of Illinois, will take the stage. The hour of their arrival in other cities of the county has not been announced.

Warren T. McGray, candidate for the republican nomination for governor will wind up the campaign Monday evening when he will appear at the Gary Theater.

Spending the day and part of the evening with his home folks in the Tenth District, and more particularly Lake county, he will also wind up his campaign.

All his numerous loyal supporters and followers will hold a rally and mass meeting in the city of Gary on the night of May 2nd, the evening before the primary election.

Senator Johnson, while governor of California, had more laws for the benefit of working people passed than any other and that is why he has such strong supporters among the working people. Do not fail to hear him on Friday night at 7 sharp.—adv.

GENUINE TASTELESS CASTOR OIL ALWAYS LABELLED KELLOGG'S

Every Bottle of Kellogg's Tasteless Castor Oil is Laboratory Bottled and Labeled Kellogg's.

When you ask for Kellogg's Tasteless Castor Oil, see to it that the bottle is labelled with Kellogg's name. Kellogg's Tasteless Castor Oil is sold only in bottles filled at the laboratory of Kellogg & Sons, Inc. Take an extra if you want a really tasteless castor oil. It is the same good old-fashioned castor oil that your doctor prescribes, with the disagreeable taste removed. It has the same strength and purity. Kellogg's Tasteless Castor Oil is precisely what the name says—absolutely tasteless. In the opinion of physicians and druggists who are already familiar with Kellogg's Castor Oil, this valuable new form of good old family remedy is a boon to children and even to grown-ups. Two sizes, 32c and 65c. At all good drug stores.—adv.

The Head of the Class

Every boy who rides a bike should put Firestones on it. They lead—stand at the head of the list for comfortable riding and long wear.

We can give you Firestones with the sturdy, non-skid tread like auto tire treads. Colors, gray, black or red, and at prices you can afford.

See us today. We'll appreciate your trade and keep it on service.

O-K Battery Contract Is Awarded

Director of the O. K. Giant Battery company have let a contract for the fourth building of the factory which is being built in Gary at a price of \$45,000. The building which will be used for manufacture of automobile batteries will be a one story brick and steel building four hundred feet long and fifty feet wide. The contractor guarantees completion in forty working days. It will be located on Kraft street north of Tenth avenue.

Officials of the company will leave today for Chicago with a battery for the Alhambra-Fox Fire Engine Company, which will make extensive tests with a view to making the battery a part of their fire engine equipment. The tests will be made by the engineers of the Alhambra-Fox Company.

SENATOR BORAH GARY SPEAKER

Over six hundred people filled the Froebel school auditorium last night to hear Senator Borah of Idaho, speak for Hiram Johnson, Republican candidate for President. Assailing the League of Nations, Senator Borah very emphatically stated "that this league is not a league for peace, but a league for war. It is not an American league. It is a European league. When the League of Nations was first under consideration, it was agreed that five points were not to be overlooked, five points which had to be included to protect the interests of this country. They were the Freedom of the Seas, Non-Interference of men for military service in times of Peace, Open Diplomacy, the Right of self-determination of small nations and Anti-Imperialism. I ask you," said Senator Borah, "which one of these principles was included in the League of Nations, not one! They were brought up before the conference at Versailles, one by one they were tossed aside as unfit. Instead of America Americanizing Europe, Europe Europeanized America in Versailles. The 'Freedom of the Seas,' one of the most vital questions which was not to be forgotten in drawing up the League of Nations, was not even submitted to this Council. Do not misunderstand me," Senator Borah said, "I do not attack President Wilson; I attack his League of Nations."

In talking on Open Diplomacy, Senator Borah stated that there never was a more secretive council held than the one held at Versailles while the League of Nations was being drawn up. "All news pertaining to the League, before reaching the United States was censored, and it is an established fact that a Wall Street man had a copy of the League of Nations for thirty days before it was published, and had placed the same in his lawyer's hands for examination to ascertain if the interests of the New York bankers had been protected," Senator Borah pointed out that small nations had absolutely no representation in the conference at Versailles. When Egypt sent her delegates to the conference and they pleaded to be allowed to put their case before the council, they were denied to do so, and even passports were denied them when they wanted to come to the United States and bring their case before the people of this country.

"British stated," said Senator Borah, "that she did not want one yard of territory that she did not have before the war. She now has 1,607,000 square miles of territory more than she had before the war, and this does not include Persia."

Senator Borah assailed the high war profiteering which was going on in this country and stated that before the high taxations could be reduced, expenditures at Washington had to be reduced and all the unnecessary bureaus which had been established in Washington had to be eliminated.

Senator Borah was cheered time and again during his speech, and when the crowd in the Froebel School dispersed, they were satisfied that they had listened to one of the ablest and most intelligent men that this country has ever had.

It was announced last night that Hiram Johnson will make a speech here on Friday night May 30th.

O'KEEFE GETS THE DECISION

"Glad" Dolg, the Spring Valley batter came to Gary last night and took a lesson from Dennis O'Keefe, of Ironville, in the game of the art of hit and get away. In the first of a series of slouts which is to be staged in Gary by the Gary Post of the American Legion. In the neighborhood of 2,500 fans, the lid lifted in Gary and with the show conducted along the orderly lines that it was no one can take exception to the Legion continuing their shows.

Forfeiting a \$100 forfeit when he failed to appear to weigh in at 3 o'clock yesterday afternoon, Dolg appeared in his corner with 13 pounds surplus to his advantage. O'Keefe was down to weight and in fine fettle for his go with the miner.

With the speed and viciousness of a tiger, O'Keefe lashed out at Dolg from the opening gong. Slowly during the ten rounds O'Keefe piled up good lead on Dolg. In the early session, O'Keefe brought the claret from Dolg's head and later Dolg retaliated when he opened an old cut on O'Keefe's eye.

Repeatedly Dolg was warned by Referee Ed. Smith for hanging on and also for using rough tactics. The crowd and the referee for this O'Keefe had a good margin on points at the close of the fight was a popular decision. He was credited with seven out of the ten rounds.

In the semi-windup, Bill Henry and Paddy Caffrey fought an eight round draw. O'Neil shined Jack Kennedy and Bob Noon won from Ken Callahan.

S Senator Hiram W. Johnson, of California, speaks at 7 o'clock Friday evening at Wolf Manufacturing Co's new warehouse on Plummer ave., west of Hohman st., on the League of Nations.

Do not miss this great orator.—adv.

WHEN HAMMOND'S CENSUS IS ANNOUNCED

Receipt of the official figures on the population of Hammond, together with those covering other cities of the Calumet region which have been learned recently, uphold Hammond's old prestige as the business center of the Calumet region and account for the fact that business rooms are always at a premium in the city.

"Few people here in Hammond seem to realize the importance of the city as a business center," said a well known Hammond business man who has been closely watching the census statistics of cities of North township and those on the Illinois side of the state line. "Take a map of the district," he continued, "and strike a circle with a five-mile radius around Hammond as a center and see what you have. It includes towns and territory within what might be termed an easy trading distance of Hammond and circumscribes a total population of well over 100,000."

Here are the cities and towns of importance within a five-mile radius of Hammond, together with their populations:

	1920	Increase
Hammond	136,018	15,093
E. Chicago	125,324	18,526
Whiting	10,140	2,553
W. Hammond	7,492	2,544
Harvey	9,216	1,989
Dolton	2,076	307
Lansing	1,409	249
S. Holland	1,277	222
Burnham	725
Thornton	767
Totals	108,124	40,793

In this territory practically all of the railroads and electric lines converge in Hammond, while bus lines have been added to bring the city in touch with towns not located on rail-

PREDICTS RETURN OF WINES AND BEER

Chicago Brewer Buys Up Stock Holdings in Chicago and Milwaukee.

(INTERNATIONAL NEWS SERVICE) CHICAGO, April 28.—Edward Landsberg, former president of the U. S. Brewing Co., is so sure that there will be a return to light wines and beer in the United States that he has bought the entire American stock holdings of the Milwaukee and Chicago breweries, limited. It was disclosed today.

The concern is a British holding corporation, controlling the stock of a subsidiary company operating the large breweries in Chicago and Milwaukee, the Michael Brand, Val Klutz, K. G. Schmidt, Ernst Brothers, and Bartholomew and Roosting Breweries.

"I hold the greatest optimism as to the future of the brewing industry in the United States," said Mr. Landsberg, "of believe that public sentiment eventually will bring a restoration of mild alcoholic beverages in this country."

CLOSE SCRAMBLE IN NEW JERSEY RACE

(INTERNATIONAL NEWS SERVICE) TRENTON, N. J., April 28.—Like a slow swimming pendulum, the Johnson Wood race in New Jersey preferential primary continued almost neck and neck today with both sides claiming victory and the possibility looming stronger that it will take the final and complete returns to develop a winner.

Predictions were freely made by political observers that whichever candidate is finally victorious, his majority will be numbered in the very small hundreds.

Johnson was in the lead early today when the more rapidly tabulated returns from New Jersey cities came in. Then as the outlying districts began to be received this lead was cut down and Wood finally passed him to a small but commanding lead.

Swinging again as the latest returns came in this afternoon, Wood's lead is being cut down and Johnson supporters are hopeful that the remaining 200 precincts will swing the tide again to the California senator.

LEADERS RUN NECK AND NECK

(Continued from page one)

been victorious, were the indications early today.

WOOD AHEAD IN LAKE COUNTIES The two Harding district delegates were defeated in the Twelfth Congressional district (Franklin county). Two Wood district delegates, also, won out in the twenty-second congressional district (part of Guyahoga, Geauga and Lake counties).

Although it is possible W. H. Boyd, Cleveland, Wood candidate, for delegate at large, has defeated Harry M. Daugherty, Columbus, one of Harding's candidates for delegate at large, he is expected to be defeated.

JOHNSON FAR BEHIND Returns from 2,672 out of Ohio's 8,892 precincts give Harding 76,789; Wood 69,728; Johnson 6,854; Hoover, 5,539.

The vote for delegates at large cast in 2,889 scattering precincts stood: Harding 65,393; Galvin 39,135; Willis 32,879; both Wood candidates, 55,941; all Harding men, Boyd 53,853; Turner, Harding candidate, 50,644.

Early returns, coming mainly from the large city precincts gave Wood a big lead, but the returns from rural districts, and suburban residential sections pushed Harding well into the lead.

BREAK INTO PUBLIC LIBRARY

Thieves broke into the Hammond public library for the fourth time this week and rifling the cash drawer stole \$2.75. City Librarian Jennie Sawyer believes it was the work of boys.

A greater belonging to one of the assistants was also taken.

lines coming into the city. In some directions the trade territory is not confined to the five-mile limit as for example towards the south, where Griffith, Lowell, Merrillville, Schererville and many other small towns contribute their portion to the city's prosperity. Crown Point, of course, claims its part of the business in its own territory, but at the same time Hammond's large and diversified stores are calling much business right out of the county seat.

Take any other part of the region and make the same circle around it and it will produce no such population or transportation facilities as Hammond shows. To begin with, half of Gary's or East Chicago's circle would be in Lake Michigan, and outside of their own city limits they can show few people who trade with them almost exclusively.

"I sometimes think," said the Hammond enthusiast, "that many of our own business men fail to realize the remarkable geographical situation of Hammond. The men who are outside and wish to locate here realize it though and there are always a number of them waiting for a chance to start in business here. It is an asset which Hammond can point to with pride and which merchants of the city should capitalize at every opportunity."

In this connection it was pointed out that the city should take an active interest in the dealings of the territory. It should go behind efforts for better roads leading into the city. Establishments of new bus lines reaching population centers which have hitherto been overlooked should be encouraged and every possible improvement to transportation facilities in and out of Hammond should be assisted.

U. S. May Limit Gas Supply

Motor Vehicles Operation May Soon Be Controlled By Federal Government.

(INTERNATIONAL NEWS SERVICE) WASHINGTON, April 28.—With reserve supplies of gasoline greatly depleted, it is so sure that there will be a return to light wines and beer in the United States that he has bought the entire American stock holdings of the Milwaukee and Chicago breweries, limited. It was disclosed today.

The bureau of mines is now engaged in collecting data on the production and consumption of gasoline as a basis for recommendations for the conservation of gasoline. One remedy which has been suggested is the allocation of available gasoline under government supervision and another plan has been advanced for restrictions upon the use of motor vehicles in order that a sufficient supply of gasoline may be assured for necessary uses.

Information collected by the bureau of mines indicates that the gasoline shortage, which is acute throughout the country, is due in a considerable degree to the attempts of foreign interests to corner the world's supply of crude oil. Money borrowed by foreign interests in the U. S. at 5 and 6 per cent interest, has been used to acquire available oil lands throughout the world. This movement has reduced the oil and gasoline supplies in the U. S.

Demand for gasoline is now at the highest point it has reached. The bureau of mines ascribes this to the greatly increased use of motor cars and particularly the increased use of motor trucks.

To increase the stringencies of the situation and making the demand more acute, the bureau of mines has found that the quality of gasoline has rapidly deteriorated since 1915.

NOTHING BUT GIRLS

Nothing but girls appears on the stage in Turgle's "Revue of 1920" the act which has made the big hit at the Orpheum theatre this afternoon. The revue is one of the best dressed all-girl acts ever seen in Hammond. The girls are pretty, the wardrobes are beautiful and the songs, dances and music are the very latest. On the same bill is Lillian Mortimer & Co., with a comedy skit, "Oh, My Darling," which is a riot. It is the same act which just finished an engagement at the State and Lake theatre in Chicago. Davis & McCoy also put on a good one while the program closes with the second episode of "Dare Devil Jack" the Jack Dempsey serial.

MEETING IS POSTPONED

Owing to the fact that several of the members will not be able to attend the meeting of the Hammond Soldiers' Memorial committee, which was to have been held this evening has been postponed until next Wednesday. It is expected that matters will have shaped themselves within the next two weeks so that the committee will be able to draw up the recommendations which are to be presented to the city council.

THIEVES STEAL BUTTER

Thieves last night broke into the Roseland Creamery at Lefroy and carried away 200 bricks of butter and 100 dozen of eggs. Every brick of butter and every carton of eggs bears the Roseland trade mark.

Priest Predicts New World War in East

(INTERNATIONAL NEWS SERVICE) New York.—Another world war within thirty years was predicted by the Rev. Peter Chan, a Catholic priest of Canton, China. At St. Ignace Loyola church Father Chan said that the council of the late war was unsatisfactory all around.

Within twenty years, he said, if Shantung is still held by Japan, China will reclaim her lost province by force.

Twin City Ready For It's Guests

Politicians of the Twin Cities will have an interesting few days at the end of this week when two presidential candidates will speak, one in each end of the city.

Gen. Leonard Wood will be the first candidate to appear and will speak at the Hartley Theater in East Chicago on Thursday afternoon at four o'clock. His appearance is one of several in the county which have been arranged by Mayor Hodges of Gary.

Gov. Lowden of Illinois, who was unable to speak in Lake county last Saturday because of a sore throat has been secured for Saturday and will speak at the Twin City Republican Club in Indiana Harbor at noon.

PIONEER IS DEAD IN FIRE

Tom Conlon, 50 years old, a Gary pioneer and one of the city's characters who was arrested so many times for being intoxicated that it took a separate pigeon hole in the index filing system at the Gary police station to keep his cards wrote the final chapter of his life in police records at noon yesterday.

Believed to have either been asleep or in a drunken stupor Conlon was suffocated and burned to death in a fire which set fire to his "bachelor" shack on the B. & O. right-of-way next to the Dalton Coal Co. shortly before noon yesterday. When taken out of the remains by a number of firemen, life was extinct. The body was removed to William's morgue.

The fire was discovered by a crew of a B. & O. milk train. The train stopped at the station a few blocks away and turned in the alarm. Conlon was formerly employed as a teamster and while at times imbued too freely from the flowing bowl of knowledge to his wide circle of acquaintances as a harmless sort of a fellow, he has no relatives and funeral arrangements have not been completed.

ANOTHER GARY LAD IS HIT BY TRUCK

Another Gary lad was the victim of an automobile accident yesterday. While riding a bicycle east on Fifteenth avenue, Harry Schaeffer, 13 years old, and student at the Froebel school, was struck by an auto truck driven by Otto Buckevich, 457 Connecticut street at the street intersection of 15th avenue and Adams street.

Luckily the truck struck him a glancing blow and outside of some painful bruises, he escaped uninjured. In the police report he was taken to his home at 1130 Wilson street. Buckevich agreed to settle for the damage done to the bicycle and all doctor bills.

BREAD TO SOAR ONE CENT HIGHER IN GARY

If it will be of interest to the Gary Housekeepers, John P. O'Rourke, manager of the Gary Baking Co., one of the largest bakers in the city, stated that the price of bread is going to soar higher and by the first of May it will go up to 13 cents a loaf instead of twelve. The price advance is due to an increase in wages to be given to the bakers in contracts of 1920.

STATE OF INDIANA, COUNTY OF LAKE, SS: IN THE LAKE SUPERIOR COURT, NATHAN MIGATZ, Executor of the Last Will and Testament of WILLIAM STIGLITZ, deceased, VS. MARCUS STIGLITZ, ET AL. No. 18321. ROOM 1.

TRACTOR CO. STOCKHOLDERS AT GRIFFITH

Enthusiastic over the progress and prospects of the Leonard Tractor Co. more than 150 stockholders and residents of Griffith and vicinity held a booster's meeting under the auspices of the Griffith Booster's Club in the town hall last night.

With more than half the voting population of Griffith already stockholders in the new tractor company, the enterprise during last night's meeting. The Griffith people are specially pleased with the energy with which the tractor company management have gone to the undertaking. They are on the ground daily and are watching progress with keen interest.

With two of the tool making machines already set in the temporary plant at Griffith, more under way, and another carload of machinery in yesterday, the tractor company is rapidly pushing its temporary plant to completion, pending the building of the permanent factory.

President and inventor, H. M. Leonard, of the company, gave details of the construction of the tractor in an interesting talk. He pointed out that it was not only fool-proof, but constructed so as to keep the dust out and the oil in. The first tractor built being operated more than two years with one oiling and without a dollar spent on repair parts.

An especially interesting talk was made by Joseph H. Conroy, of Hammond, who reviewed the industrial growth of this section and pointed out its prospects, predicting that the district between Evansville and Michigan City would reach a population of 2,000,000 people within the next few years. He showed Griffith's possibilities with its five railroads giving wonderful transportation facilities. Vice President Wynant of the tractor company and Sales Manager Adams also made brief talks.

You will learn the truth about the League of Nations when Senator Johnson of California, speaks in Hammond on Friday night at 7 o'clock sharp at the new warehouse of Wolf Manufacturing Co. on Plummer ave., west of Hohman st.—adv.
